## **AERIAL TRAM** FOR MAMMOTH

Company Determined to Move Ore to Strong Combination Is Now in Con-Loading Station Cheaply.

SHAWMUT MINE TO RESUME

BOSTON CON. MINES GROWING CONSTANTLY BIGGER.

The Mammoth Mining company expects to place a corps of surveyors in the field during the next few days to survey a line for an aerial tramway between its mines and the town of

thing like 4.000 feet of cable will span the distance and we have the assurance of experts that we can build the line and move our ores at a cost of not exceeding 10 cents a ton. We could also use the tram for up-freight and thus effect an additional saving in operating expenses. If it is decided to build the line surveyors will be started to work at once, as the aim will be to get the foundations in and the towine was, looking good at the present level, where a new body of ore is now being opened up.

CINCINNATI OPERATOR HERE.

President of United Bingham Says Rich, & Ana. White Rock East Is Looking to Utah.

Louis Moore, president of the United Bingham company, arrived in the city from Cincinnati Wednesday night and will spend several days looking into his various mining interests in the nearby camps. Tomorrow, in company with Manager H. S. Joseph, he will go to Bingham and size up conditions at his own company's property as well the Silver Shield, in which he

as at the Silver Shield, in which he is also largely interested.

Mr. Moore was an interested spec-Mr. Mother was an interestal spectator at the afternoon call on the mining exchange and he marveled that so little was doing, considering the evident good condition in which most of the state had the renuthe mines of the state had the reputation of being in.
"Everybody speaks well of Utah."
said Mr. Moore, "and the east is at

present very much interested in the remarkable growth and prosperity of this region. Market conditions will change by and by, for, as I look at it, everything must been here before

SHAWMUT TO RESUME.

trol of Bingham Proposition.

F. W. McAleer of Boston, secretary and one of the big men in the Shawmut Mining company, returned Wednesday night from a several days' trib to the property of the company, where he has been making a study of conditions with a view to a resumption of active operations. He left yesterday morning for Portland and will stop

off here on his way back to Boston a few days later. Previous to leaving Mr. McAler stated that the position of the com-pany at the present time was a strong one. Powerful financial interests have

Mother the line is built or not, the management states, will depend altogether on what the railroad company will do in the matter of making a lower rate on the handling of ore between the mine and Robinson.

"At present it costs us 20 cents a ton to thave our ore hauled down to Robinson, the shipping station," said Superintendent Samuel McIntyre, jr., yesterday, "That, we feel, is altogether too much. A reduction is being sought, and, if it cannot be secured, no time will be lost in building a tram. I think a survey will show that something like 4,000 feet of cable will spaa the distance and we have the assurance of experts that we can built or not, the believe that the Shawmut has the nutk-ing of one of the big mines of the camp. A great deal of development has already been done and not a little ore has been opened up. However, the work was stopped just short of where it ought to have been pushed to in order that the full merit of the properties of a pool, as there was no news of importance. However, it was very well taken and the close was at the highest price for the day. The buying of Amalysman and could be traced to New York. Quotations:

Sale

The famous Logan-Hully mine in Como district. tributary to Carson City, was sold today to a company represented by Prescott Ely, who is prominently identified with the Ohio-Tonopah mining company in Tonopah, says the Carson News. The purchase price is given out as \$75,000.

The purchase price is given out as \$5,000.

This property contains miles of workings and is equipped with a ten stamp mill and a cyanide plant, both in excellent condition. The ledge varies from eight to 100 feet in width and there are backs exposed for 500 feet, all pay ore, of low grade, but yielding easily to plate treatment, the escaping values being nearly all caught by the cyanide of potassium.

The new owners have been on the ground for ninety days, employing twelve men who were trying out the mine. There is a large ore dump and now that a portion of the purchase price has been paid and the ownership in the new hands, the mill will shortly be started on a long run.

GIBRALTAR'S BIG STRIKE.

Manager Leaves for Bullfrog to Ir

spect It Personally.

son. Lafayette Hanchett, general of Mr. Newhouse's interests in te, said:

To inspect personally the strike made in the Gibraltar syndicate's mines at Bullfrog a few days ago General Manager J. H. Shockley pulled out for camp yesterday never looked as well as they do not that is saying a great deal, for re in magnificent condition when there. In that portion of the proposich is producing at this time the disturbed ore are much greater ey were when I first inspected and notwithstanding the shipments. 200 to 300 tons of ore per day to there, the reserves are being added net time.

Operation of this portion of the by's property has nothing to do porphyry belt that is now being in several tunnels and which has already to have a width of 600 to and a length yet to be determined, the work done in this mountain.

Ore and Bullion.

Ore and bullion settlements in this c yesterday, as reported by McCornick Co., amounted to \$72,100, as follows: \$ ver, lead, gold and copper ores, \$23,500, base bullion, \$42,600.

Metal Markets. Silver, 61%c per ounce. Copper (casting), 15%c per pound. Lead, in ore, \$3.50; New York, \$4.85 per 0 pounds.

MINING STOCK EXCHANGE

Star Con. and New York Bonanza Monopolized Attention Yesterday.

Star Consolidated and New York Bonara were about the only stocks to attract more than passing attention on the mining exchange yesterday. Beck Tunnel was the only stock to record a sale during the regular call in the morning, and there were only three participants in the formal call in the afternoon. The day's trading brought out a total of 21.70 shares of stock, the selling value of which was \$4.819.88.

New York sold as low as 19½c in the morning, but it closed the day in little better form at 26c. Star Consolidated, with 8,000 shares changing hands, did business at 18½c to 17c, while Lower Mammoth was steady at 30c. Butler-Liberal sold at 6½c, and Beck Tunnel brought 13c and 13½c. Columbus Consolidated did a little business at \$2.20 to \$2.18½, and May Day dropped 1,000 shares at 8c, buyer sixty days.

Following is the list of final quotations and record of sales made:

ness man and mining operator, is from camp. While a great deal of development is going on in the district, he states that there is nothing particularly new to report at this time. port at this time.

Manager Henry M. Adkinson of the New England company's mines at Bing ham, returned from his duck hunting trip to the mouth of Bear river yesterday morning and left for camp in the after

J. M. Callow, the well known metallurgical engineer and concentrating expert, has returned from a six weeks' business trip through the north and northwest. Embraced in Mr. Callow's clientele at the present time are the Amagamated and Heinze companies of Butte, the Bunker Hill & Sullivan and the Federal companies, of the Coeur d'Alenes, and a number of other prominent corporations. He is therefore kept on the move.

Manager P. W. Madsen of the Century.

therefore kept on the move.

Manager P. W. Madsen of the Century, reports that some fine gold ore is being encountered in sinking the winze from the lower tunnel level in that property. Advices from camp yesterday were to the effect that at a depth of sixty feet assays showed the ore to run \$42 a ton. The winze will be continued to the 100-foot mark when a new level will be established and the ledge opened up. Mr. Maisen is highly elated over the manner in which the veln is showing up as depth is attained.

J. OBERNDORFER.

Stock Broker. Tel. Bell 792. 161 S. Main St. MONEY TOO HIGH **FOR SPECULATORS** 

Call Loan Rate Touched Eight Per Cent Yesterday.

WALL STREET VERY DULL

PRICES DOWN BUT UNDERTONE IS FIRM.

New York, Oct. 5.—The call loan rate Pacific Mail .. Pennsylvania .. Pennsylvania .. Pennsylvania .. Pennsylvania .. Pennsylvania .. one. Powerful financial interests have become identified with it and he expresses the opinion that when another start is made at the mines it will be on lines that will insure the success of the undertaking.

Competent mining engineers here per cent today and the stock market as a whole resumed the appearance of last week. That it is to say trading became dull and constrained, but the undertone held firm Last week the firmness. held firm. Last week the firmness attributed to the expectation of an early easing of money after the especial requirements for the turn of the quarter and for large syndicate transactions had been made. In today's market, however, there has been perceptible growth of opinion that money rates are likely to be firmly held for some time to come.

In speculative circles, where the talk of the return of ease in money has dealt with days heretofore, the allowance for possible firmness of money was extended to weeks. In this the speculative discussion came more into line with the prevalent bank opening, none of which looks for relaxation in money except with the passage of weeks and in some cases bank ers look for months as the period of duration for higher money rates. In behalf of this opinion bankers assert that a firm money market in New York through the last quarter of the year is a perfectly normal condition. The situation this year it is pointed out is calculated to emphasize this condition rather than to relieve it.

Efforts were made in speculative quar-

size this condition rather than to relieve it.

Efforts were made in speculative quarters, however, to mitigate the influence of yesterday's flurry in money by attributing it to special causes. The rise today to above the rate quoted yesterday rather dissipated the effect of this explanation. The high rate had the effect, however, of attracting loans from outside sources and there were large offerings on account of banking institutions at other points. These funds, however, were drawn for the most part from deposits in New York banks. The effect was the same as the process of transfer of loans from the New York banks to the trust companies, which has been going on for several weeks, the new loans necessitating to some extent, the calling of old loans by the New York banks.

Some of the recent lenders amongst the trust companies were reported also to be appropriet, those calling loans today. trust companies were reported also to be amongst those calling loans today. A rise in New York exchange at Chicago was a reflection of the attraction of the higher money here. The decline in foreign exchange was another result. Large additional arrivals of gold are expected in London tomorrow and the day's decline in sterling rates here leaves open the question of New York's ability to secure a portion of this. Discounts moved upward today in London and in Paris and the extraordinary low proportion of the reserves reported by the Bank of England gave occasion for surprise that the expected advance in the bank rate was not made. trust companies were reported also to be

more market was not important, but the upmarket was not made.

The fact that continental exchanges had continued to move against London in spite of the week's rise in the open market rates there adds to the puzzle of the retention of the present rate. The continued pressure for funds at Paris is believed to be due to heavy losses involved in the collapse of the sugar speculation in France. The day's movements in the money markets and in the international exchanges of the world offered no explanation for the reported shipment of \$4.500.000 of gold from the Bank of France to London and the operation was the subject of interest and surmise in banking circles. The movement of prices of stocks under the restraint of the money market was not important, but the upmarket was not important at £14 lls 3d.

Spelter was also higher in London. Spelter was also higher in London.

Metal Markets. New York, Oct. 5.- The London tin mar-

Prime mercantile paper, 4½@5 per cent. Sterling exchange weak, with actual business in bankers' bills at 4.8525@4.8530 for demand and at 4.8220@4.8225 for sixty day bills; posted rates, 4.82@4.83½ and 4.86 @4.86½; commercial bills, 4.81¾. Bar silver, 61¾. Mexican dollars, 47. Government and railroad bonds firm.

Chicago, Oct. 5.—On the produce exchange today the butter market was firm; creameries, 17½@20½; dairies, 16½@1b. Eggs—Steady at mark, cases included, 17½; firsts, 18½; prime firsts, 20½; extras, Cheese-Steady; 11@111/2.

Coffee and Sugar.

New York, Oct. 5.—Coffee—Spot Rio steady; mild firm. Coffee futures closed steady, net unchanged to 5 cents higher. Total sales, 32,000 bags, including Oct., 7.00; Nov., 7.0567.10; Dec., 7.1067.20; March 7.3567.40.

Sugar—Raw steady: fair refining, 3; centrifugal 96 test, 3%; molasses sugar, 2%; refined quiet. GRAIN AND PROVISIONS.

Chicago, Oct. 5.—The wheat market opened firm, December being up 1/6/1/4 to 1/4/6/3/4 at 843/6/841/4. From the start comin the start commission houses were active bidders, but offerings were relatively small. The principal factor in the situation was news from Duluth confirming reported sales of wheat there for export to Germany. In addition, it was announced that another lot had been purchased today for German account. The market here was further strengthened by moderate demand for a leading bull. Weather in the northwest today was exceedingly favorable for the movement of the new crop. This fact, however, was apparently ignored. After touching \$45, soon after the opening, December quickly advanced to \$45. Small recessions occurred at various times during the remainder of the session, but the leading long, who was a conspicuous buyer early in the day, continued to give the market

support whenever necessary to prevent any decided decline. The close was firm with December up ¼ at \$43,634½.

Sentiment in the corn pit was builtsh notwithstanding continued clear with the corn beit. The the closed strong and prices at the thin selections of the day. December closed at 44, a gain of \$40½.

Trading in the oats pit was more active today than for some time past. December closed \$40½ up at 23½.

Provisions were steady as a result of a 10c advance in the price of live hogs. At the close January pork was off 2½, lard was a shade lower and ribs were down a shade.

The leading futures ranged as follows:

"Drunkenness" Cigarette and Tobacco

Habits Cured by

TRIB

Mrs. J. S. Watson, La Grande, Ore., writes;

"Your request for a reference about "TRIB" received and will give you the words of praise only that your treatment deserves, and that is much. "My son was a hard drinker and to-bacco user for twenty years and has taken many advertised cures for both liquor and tobacco, but never stayed with it longer than one month at any time until I got "TRIB" for him. He took "TRIB" about ten months ago and has not used either liquor or to-bacco since the fourth day he commenced to take your treatment. He has gained twenty pounds and is home with me every night he is in town. You may use my name to tell people "TRIB" is all you claim for it."

Each treatment is guaranteed by us: it is our way of doing business with you. Price, \$12.50.

F. C. Schramm, Doull Drug Co., Cor. 1st So. and Owl corner, next door to new the cars stop." Postoffice. Sole Agents.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff and Falling Hair with irritants or oils on which a parasitic germ will prosper is like scooping water from the ocean to prevent the tide from rising. You cannot accomplish a satisfactory ure without having a right understanding of the fundamental causes of the trou-

le.

You must kill the Dandruff Germ.

Newbro's Herpicide does this because it specially made to do that very thing.

When the germ is removed the hair has o choice but to resume healthy growth Smith Drug Co. special agents.
